

## 4-WHEEL ABS DIAGNOSTIC TROUBLE CODES

Code	Description
B1342	Anit-lock brake control module failure
B1317	Battery voltage high
C1095	Pump motor
C1145	Right front anti-lock brake sensor (electrical/static)
C1148	Right front anti-lock brake sensor (dynamic)
C1155	Left front anti-lock brake sensor (electrical/static)
C1158	Left front anti-lock brake sensor (dynamic)
C1165	Right rear anti-lock brake sensor (electrical/static)
C1168	Right rear anti-lock brake sensor (dynamic)
C1175	Left rear anti-lock brake sensor (electrical/static)
C1178	Left rear anti-lock brake sensor (dynamic)
C1194	Left front outlet valve circuit failure
C1198	Left front inlet valve circuit failure
C1214	Right front isolation valve
C1233	Left front speed sensor signal missing
C1234	Right front speed sensor signal missing
C1235	Right rear speed sensor signal missing
C1236	Left rear speed sensor signal missing
C1242	Left rear outlet valve circuit failure
C1246	Right rear outlet valve circuit failure
C1250	Left rear inlet valve circuit failure
C1254	Right rear inlet valve circuit failure
C1258	Left front speed sensor signal comparison failure
C1259	Right front speed sensor signal comparison failure
C1260	Right rear speed sensor signal comparison failure
C1261	Left rear speed sensor signal comparison failure
C1267	ABS function temporarily disabled
C1400	Traction assist valve failure
